

Senator Horn,

I'm writing to you in support of SB 1065. This legislation is critically important to our State and necessary to be competitive in the attraction of major sporting events. As a founding member of the Detroit Sports Commission I am keenly aware of both the successful and unsuccessful efforts that have been put forth to bring these important events to Michigan.

One of the major challenges we have is the outdated fund raising model that we are forced to use. This legislation will fix that challenge as it will put in place a permanent funding source for these major events.

Thank you for your consideration.

Sincerely,

Sandro DiNello

What solutions can we craft for you?
